**GENERAL DESCRIPTION:** RINSE LF is a concentrated liquid rinse additive with extra defoamers which reduces rinse-water surface tension, providing rapid sheeting action for spot free drying. The excellent sheeting action of RINSE LF helps eliminate alkaline and hard water film deposits from flatware, glasses and dishware. In addition, RINSE LF controls foam thereby improving the performance of the dish machine pump. RINSE LF is formulated to attain excellent results in medium to hard water conditions.

## PROPERTIES:

Chemical composition ... Organic, nonionic wetting agents  
Appearance ..... Clear blue liquid  
pH , 4% ..... 2.8  
Specific Gravity ..... 1.030 (8.58 pounds per gallon)  
Wetting Ability ..... Instant, complete  
Foam ..... Acts as a mild suppressant  
Odor ..... Not residual

## INSTRUCTIONS FOR USE:

RINSE LF is recommended for use at a concentration between a minimum of 100 ppm (1:10,000) and a maximum of 300 ppm (1:3,000). The actual use concentration is determined by the individual operating conditions. RINSE LF may be used at concentrations as low as 50 ppm (1:20,000) under ideal water conditions consisting of low water hardness and low dissolved solids levels. For optimum results, install the rinse injection fitting as far back in the line from the rinse jets as possible. This allows thorough mixing of RINSE LF with the water supply before it emerges from the final rinse jets. Final rinse temperature should be maintained as close to the 180°F (82 °C) minimum as possible, and should not exceed 190° F (87 °) in any case. Check the final rinse pressure and set at manufacturer's recommended level. Also, inspect final rinse for spray atomization. Adjust the rinse injector to feed RINSE LF at the required concentration to achieve the rapid sheeting of water from the ware.

## HANDLING PRECAUTIONS:

### CAUTION - FIRST AID

**EYES:** Flush with water for at least 15 minutes. If irritation persists, obtain medical attention. **SKIN:** Wash with plenty of water for 15 minutes. If irritation occurs and persists, obtain medical attention. **INHALATION:** Remove from exposure. If discomfort occurs and persists, obtain medical attention. **INGESTION:** Drink water to dilute. Obtain medical advice by phone. **DECONTAMINATION PROCEDURE:**

Wash with soap and water.

**WARNING:** Do not store near oxidizing material.

**KEEP OUT OF REACH OF CHILDREN**

## PACKAGING:

4 /1 gal plastic bottles - 35 lbs. net/38 lbs. gross  
5 gal plastic pail - 43 lbs. net/46 lbs. gross
